

**Client: Sunday Times**

**Agency: panelbase.com**

**Universe: Adults resident in Scotland**

**Methodology: Online panel**

**Sample size: 1,012**

**Fieldwork dates: 24-29 March 2011**

**Weighting: All the results were weighted by age, sex, household tenure and SEG. The voting intention tables were further analysed in two ways:**

**Respondents who voted in 2007 were weighted back to the actual 2007 result (separately for constituency and regional).**

**Respondents who did not vote in 2007 but who said they were very likely to vote this time (8-10 on a 10 point scale) were added to the people who did vote, to produce the final results.**
